

In The United States District Court
For The Middle District of North Carolina

United States of America,
Plaintiff,

Criminal Action No.
1:13-CR-435-1
17 CV 1036

v.

Brian David Hill,
Defendant,

Declaration of Brian David Hill in opposition to charge
under Documents #156, #157, and #158

Criminal Defendant Brian David Hill hereby files this Declaration
in opposition to the charge against him under Documents #156,
#157, and #158; and this Declaration can and will be used
in determining the Probable Cause of whether Brian David Hill
violated his Supervised Release conditions, or not.

Declaration

I, Brian David Hill produce these statements under oath and
subject to the penalties of perjury thereof:

I had received documents from Roberta Hill, Stella Forinash,
and Kenneth Forinash; and they informed me of newly discovered
evidence regarding me being exposed to carbon monoxide

in my Apartment prior to my arrest on September 21, 2018. The carbon monoxide buildup started after the flues from the Chimney were blocked off, causing carbon monoxide from the gas logs, the furnace, and the hot water heater which all use natural gas. So throughout my stay in my Apartment on Forest St in Martinsville in 2018, I was exposed every night (exception of overnight trips authorized by my Probation Officer) to carbon monoxide poisoning and even in the day time when I was inside my home. All of this I have learned from what my family told me at visitation, over the phone, and/or typed correspondence via mail.

I have informed the Circuit Court of Martinsville Virginia (by Certified mailing to the Clerk, tracking no. 7018-1130-0000-8936-6313), Jason McMurray (U.S. Probation Officer, Roanoke, VA), and V.A. Attorney General (by Certified mailing tracking no. 7018-1130-0000-8939-2510) about the carbon monoxide poisoning exposure in my home all the way up till ~~the problem was fixed~~ my arrest. It is a fact that I had suffered carbon monoxide exposure in my home prior to me being arrested for indecent exposure, case no. C18-3138, and on the date of September 21, 2018. Carbon monoxide can cause abnormal, erratic, and strange behavior, hallucinations and may cause brain damage or even death. At the time of my conduct on September 21, 2018, I made irrational or stupid decisions which caused my arrest while I was under the influence of carbon monoxide poisoning exposure in my home.

It was in March, 2019, when I was made aware of this new information/evidence.

I wasn't just threatened by a man wearing a hoodie, but that evidence of carbon monoxide gas exposure was found in my Apartment from what my family told me this year.

Carbon monoxide can influence the brain to making erratic, abnormal, and/or irrational decisions. Carbon monoxide can cause hallucinations and strange behavior.

The carbon monoxide may have caused me to exhibit weird abnormal behavior on September 21, 2018. I never masturbated in public, I was not aroused, and I was not being obscene. If the Circuit Court accepts the carbon monoxide documentation as evidence in my criminal case and finds me factually innocent and legally innocent, that I did not indecently exposed myself, then I did not violate my supervised release conditions. I was naked but did not do anything obscene, I was under the influence of carbon monoxide, and therefore I am not guilty of indecent exposure, and didn't violate my conditions of supervised release.

I declare under penalty of perjury that the foregoing is true and correct. Executed on March 23, 2019.
